Bulbs and Roots . . . FOR GREENHOUSE USE

AMARYLLIS

Giant Hybrids

The colors range from pure white grounds with varied markings of rose, red, and crimson, to the richest self colors as scarlet, crimson, bright red, cherry, and almost maroon.

Large Bulbs in Choice Mixture. 75c. each, \$8.00 per doz., \$60.00 per 100.

Extra Choice Hybrids. In selected types, from \$5.00 each and up, according to selection.

ANEMONES

Dainty, free flowering bulbs for forcing, or outside planting in the southern states. If planted in the north, they need well drained soil and a good mulch covering.

Blue Poppy. A most attractive strain, running all shades of beautiful blue. Very large.

Chrysantheaflora. This strain is similar to St. Brigid, but has a larger proportion of double flowers with petals that are finer divided. Gorgeous colors.

His Excellency. A grand variety bearing flowers measuring 3 in. across, of the most vivid vermilion with silver white base and handsome black central boss.

Monarch de Caen. A magnificent robust growing strain of Poppy Anemone with immense, saucer-shaped flowers of the most brilliant and varied colors from pink to beautiful shades of blue and brilliant scarlet, borne on long, strong stems.

St. Brigid, "Creagh Castle." Large, semi-double flowers of the most brilliant hues and delicate shades of colors, including a good proportion of rose, pinks, lavenders and blues.

Price of all the above Anemones
\$1.00 per doz., \$7.00 per 100
\$68.00 per 1000

All the above:
75c. each, \$8.00 per doz.

Bulbs for Outdoor Planting

When these gay, spritely flowers burst into bloom, even before Winter has quite finished saying au revoir, how happy you will be that you were thoughtful enough to plant some bulbs. Your one regret will be, you didn't plant more, for they are such a glorious sight after the long Winter months. Plant the bulbs in October and then, year after year, without any further attention, they and their offspring, will be merrily greeting you each Spring. They are equally lovely in bold borders or in clumps of a dozen or more, either in rock gardens, under trees, around shrubbery or in any little nook you may wish to beautify. When the bloom is over, let the leaves die off before cutting them.

Varieties marked with asterisk (*) are suitable for forcing

Tulips

To the Amateur:

Tulips should be planted about October 10th so that a strong root growth may develop before the ground freezes. This assures a fine, large bloom. If planted after November 1st a mulch of cow manure should be applied about January 1st or when ground is well frozen and removed about March 1st.

If you would like the thrill of raising flowers of exhibition size and quality plant your Tulip bulbs as follows: Dig a trench about 1 foot deep. Then loosen the soil to a depth of 6 or more inches. Put in about 4 inches of shredded cattle manure and cover this with a mixture of soil and sand to a depth of 2 inches. Plant your bulbs about 5 or 6 inches apart and cover with a soil, sand and manure mixture, adding a generous amount of bone-meal after the bulbs are well covered. After the ground thaws in early Spring add an application of commercial fertilizer and give the bed a good soaking. A lot of trouble? . . . perhaps, but oh what glorious flowers!

Breeder Tulips

The Breeder Tulips constitute a superb race of May flowering varieties, the colors being mostly soft and deep; bronze, orange and violet shades predominating. Large flowers borne on strong stems approximately 2 to 2½ feet long.

Alice Keith. Reddish orange with bronze margin. Height 30 in. \$1.00 per doz., \$6.50 per 100, \$60.00 per 1000.

***Apricot.** Bronze, shaded apricot, olive base. Height 25 in. 75c. per doz., \$4.50 per 100, \$40.00 per 1000.

Bacchus. Dark violet, large flower. Height 28 in. \$1.00 per doz., \$6.50 per 100, \$58.00 per 1000.

Bronze Queen. Soft buff, inside tinged golden bronze. Height 28 in. 75c. per doz., \$4.50 per 100, \$43.00 per 1000.

Hyacinths

You just can't fail to include Hyacinths in your "must list." They are so easy to grow and our bulbs will produce flowers for you comparable with those of your florist. Plant the bulbs 6 or 7 inches deep and 6 inches apart with about 1 inch of sand underneath. For a glorious bloom which will be the envy of your neighbors, mix in the soil a generous amount of bonemeal and cover lightly with manure after the ground has frozen. Remove about March 1st and soak in a good commercial fertilizer.

The following varieties are offered in three sizes:

Exhibition Quality (Mammoth Bulbs)
\$2.50 per doz., \$18.00 per 100

First Size Forcing Quality
\$2.00 per doz., \$15.00 per 100

Second Size

AMARYLLIS

Halli (Lycoris squamigera). "The Magic Lily." For outdoor planting. Produces in early Spring attractive green foliage which grows until July when it disappears, but about a month later, as if by magic, the flower stalks spring from the ground to a height of 2 or 3 feet, developing an umbel of large and beautiful Lily-shaped flowers 3 to 4 inches across and from eight to twelve in number, of a delicate lilac pink, shaded with clear blue. *Culture*—As the bulb is perfectly hardy without any protection, it can be planted in the Fall. Cover the crown about 4 in. Very useful for the border or among shrubbery.

Extra Selected. Each 25c., \$12.00 per doz.

CAMASSIAS

Hardy bulbous plants that thrive well in any situation and are excellent for naturalizing.

Esculenta. Light purple. 2 ft. 60c. per doz., \$4.00 per 100, \$35.00 per 1000.

Leichtlini. This variety has a long flowering period and carries as many as one hundred flowers on a spike. Blue to purple. 3 ft. \$1.50 per doz., \$10.00 per 100, \$95.00 per 1000.

Chionodoxa

CHIONODOXA

Sardensis. Deep blue. 75c. for 25, \$2.50 per 100, \$20.00 per 1000.

CROCUS

"THE FIRST BLOOMS"

What a delightful thrill this gay little flower will give you and your friends. Planted throughout the lawn or en masse, their very early bloom, sometimes peeping through the snow, is indeed a joy to behold. Don't fail to plant some of these along with Camassias, Chionodoxa, Leucojum vernum, Snowdrops and Scillas. They just seem to sing out "Spring Is Here."

Amethyst. Bright pale lavender.

Enchantress. Bright porcelain-blue.

Ivanhoe. Rich, dark blue.

Kathleen Parlow. Large pure white.

Pallas. White ground, fine lilac stripes.

Purpurea grandiflora. Large purple.

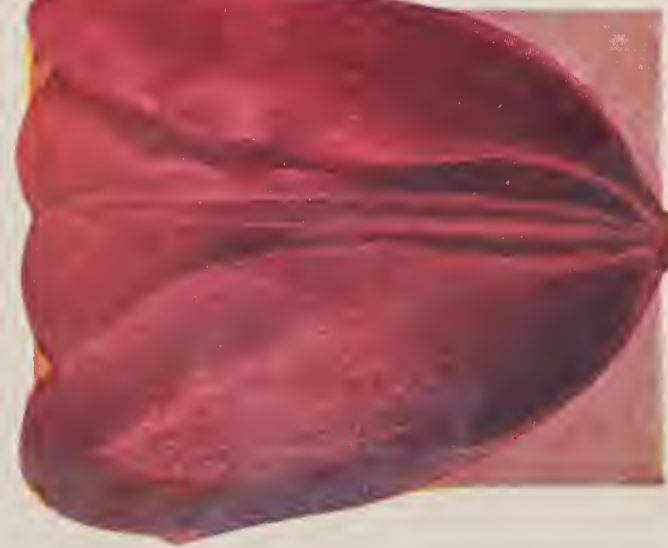

Remembrance. The best lavender.

Snowstorm. Best white.

Mammoth Yellow. First size, large golden yellow.

Americanum albidum. White, slightly yellowish at base.

Each of the above:
\$1.00 per doz., \$7.00 per 100

FRITILLARIA IMPERIALIS

(Crown-Imperial)

Hardy border plants of stately growth, producing whorls of pendant, bell-shaped blossoms, having a most unusual and exotic effect, difficult to describe. This is something you and your neighbors will rave over.

Choice Mixed. \$1.35 for 3, \$4.50 per doz., \$35.00 per 100.

FRITILLARIA MELEAGRIS

(Snakehead Fritillaria)

Very quaint and elegant dwarf growing class, thriving well in grass, shady places, etc.

Choice Mixed. 60c. per doz., \$4.00 per 100.

GRAPE HYACINTHS

(Muscari)

Should be planted in fairly large numbers for best effect. Grouped in clumps of a dozen or twenty bulbs they are charming in border or rockery. Plant about 3 inches deep and 2 inches apart.

Armeniacum. Largest and best of all the blues.

Album. White.

Heavenly Blue. Sky blue.

All the above:

\$3.00 per 100, \$25.00 per 1000

\$55.00 per 1000

Scillas, Sibirica

Snowdrop (Galanthus)

LEUCOJUM VERNUM

(Spring Snowflake)

One of the earliest and most attractive Spring flowers, similar to the Snowdrop but larger and of stronger habit. Growing 6-8 inches high, they bear dainty, nodding flowers which are white, tipped with green. \$1.00 per doz., \$7.00 per 100.

SCILLAS

All the varieties of the Scilla campanulata family are splendid for naturalizing, flowering in shady places.

Campanulata alba. Pure white. \$1.00 for 25, \$3.50 per 100, \$30.00 per 1000.

Campanulata, Excelsior. Bright deep blue. \$1.00 for 25, \$3.50 per 100, \$30.00 per 1000.

Sibirica, Spring Beauty. The color is a brighter blue and the plant produces taller stems with five to six flowers from one bulb. A decided acquisition among these lovely Spring-flowering bulbous plants. \$3.50 for 25, \$12.00 per 100.

SNOWDROPS

(Galanthus elwesi)

Giant Single. \$1.00 for 25, \$3.50 per 100, \$30.00 per 1000.

Giant Double. \$1.25 for 25, \$4.50 per 100, \$40.00 per 1000.

TRILLIUM GRANDIFLORUM

Beautiful white American Wood Lily. It grows 8-15 inches high, large white flowers often 2 to 2 3/8 inches in length and 2 inches wide, turning to lilac color with age. Blooms early in the Spring and thrives best in moist, shady situations. \$2.10 per doz., \$14.00 per 100.

Hardy Lilies

More and more the amateur gardener is turning to Lilies and other Lily-like bulbous plants on account of their easy culture. Planted in the Fall, year after year without any attention whatever they reward your slight efforts with their lovely blooms from June until September. If you haven't any of the many different species of the stately and glorious Lily or of such allied bulbous plants as Fritillaria Imperialis or Amaryllis, you really should not fail to plant them this Fall. You and your friends will be delighted with their amazing beauty. Each year they develop larger and more perfect blooms. Our bulbs are the world's finest selections and must not be confused with second or third rate bulbs which can be bought cheaply but lead only to disappointment. Many imported Lily bulbs arrive in this country very late in the Fall. If freezing threatens before your bulbs arrive, cover the soil with a heavy mulch to keep it soft.

(Prices subject to change)

Fairfax Strawberry—Highest Quality of All

Pot Grown Strawberry Plants

Ready for Shipment August 1st

EARLY VARIETIES

Premier. Extra early; good size berries. \$7.00 per 100.
Fairfax. Highest quality of all. Very productive. The beautiful large berries become dark red when fully ripe. About a week later than Premier. \$8.00 per 100.
Dorset. Light red fruits of medium size. Vigorous grower producing large numbers of runners. Ripens early with Premier. \$7.00 per 100.

MIDSEASON VARIETIES

Catskill. Makes a large, strong plant with bright red fruits borne on long stems. A sure cropper, bears heavily throughout a long season. \$7.00 per 100.
Chesapeake. Average size berries of brilliant red color, and fine flavor. Needs land that has been well manured. \$8.00 per 100.
Big Joe. A good grower and cropper on almost all types of soil. Medium size; good flavor. \$7.00 per 100.
Marshall. An old standard variety which still retains its popularity. \$7.00 per 100.
Pathfinder (formerly known as New Jersey 35). The berries ripen a few days after Premier. A very good midseason variety. Large cropper. Berries medium size and very dark in color. \$7.00 per 100.

LATE VARIETIES

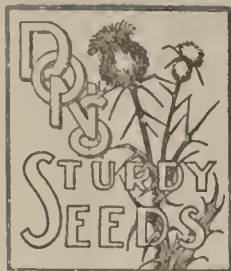

Gandy. This fine late variety needs moist conditions for best results. Fruits are large and solid, and the plants moderately productive. \$7.00 per 100.
Lupton. A large late berry of fair quality. Somewhat tart and quite dry. On this account it is a good shipping variety, and a favorite commercial sort. \$7.00 per 100.
Wm. Belt. Yields heavy crops of large, bright red berries of unusually high quality. \$7.00 per 100.

EVERBEARING VARIETIES

Mastodon. A true everbearing variety. Berries are attractive in appearance, and average large size. Excellent quality, and firm enough to ship moderate distances. \$10.00 per 100.
Progressive. Sweetness and productivity are the outstanding points of this variety. Berries are a little smaller than Mastodon, but has real quality. \$10.00 per 100.

FORCING VARIETIES

Royal Sovereign. We consider this the best forcing variety and can offer strong plants at \$2.25 per doz. and \$15.00 per 100.
Marshall. A berry of fine quality and handsome appearance. \$1.50 per doz., \$9.00 per 100.

Planting Table for Beds of Bulbs

Depth at Which Bulbs Should Be Planted

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. *Outdoor planting should be done early in the Fall* to secure healthy plants, vigorous foliage and beautiful flowers. We suggest about 1 inch sand placed under each bulb and a generous admixture of bonemeal with the soil composing the bed.
